Education

B.Tech in Computer Science & Engineering

Graphic Era University, Dehradun

2023 – Present

CGPA: 9.0/10.0

Intermediate (CBSE Board)

B.L.M. Academy Sr. Sec. School, Haldwani

2022 – 2023

Percentage: 93.6%

High School (CBSE Board)

Rainbow Academy Sr. Sec. School, Haldwani

2020 – 2021

Percentage: 93.1%

Projects

SlotX — Intelligent Exam Slot Booking System

Feb 2026

GitHub

- Developed an intelligent exam slot booking system using React.js, Express.js, Node.js and MongoDB for database, integrated with Mongoose schema.
- Engineered a booking gateway with slot update logic and automated audit-trail system.
- Improved dashboard rendering speed by 40% by implementing a two-layer fetching strategy.

SWG — Secure Access Gateway

Oct 2025

GitHub

- Developed a role-based access control system to manage user permissions across organizational resources.
- Engineered production-ready RBAC gateway with 3-tier role hierarchy (Admin/Moderator/User), securing 10+ API routes via JWT.
- Built a responsive React frontend with protected routing, real-time session validation, and automatic token refresh.

AI-Fitpal — Intelligent Fitness Assistant

Jan 2025

GitHub

- Built a full-stack fitness platform with AI-driven workout and nutrition plans using MERN stack and Hugging Face API.
- Integrated intelligent recommendations based on dietary preferences, BMI, and weight training goals.
- Implemented JWT authentication and RESTful APIs for secure sessions and health data management.

Technical Skills

Languages: Java, C, C++, Python, JavaScript

Web Technologies: React.js, Node.js, Express.js, REST APIs, HTML5, CSS3, TailwindCSS

Backend & Security: JWT Authentication, Role-Based Access Control, Input Validation

Databases: MongoDB, MySQL, Prisma ORM

Libraries & Frameworks: Mongoose, Axios, React Router, NumPy, Pandas, Matplotlib

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, WSL

Core CS: Data Structures & Algorithms, Operating Systems, Computer Networks, OOP

Achievements

- Solved **200+** DSA problems on **LeetCode**, strengthening problem-solving and algorithmic thinking skills.
- Successfully completed **Hacktoberfest 2025** by contributing **6+ accepted pull requests** to open-source projects after quality review.
- Earned the **final-level evolving Holopin badge**, reflecting consistent and impactful open-source contributions.

Certifications

AWS: Cloud Practitioner Basics, Shared Responsibility Model, DevOps Fundamentals

Google Cloud: Generative AI, Large Language Models

SWAYAM (NPTEL): Multi-Core Computer Architecture
